SVM Hr Sec School, Paluvoor.
10th percentage – 85.1%

EXPERIENCE

New India Assurance Company
Summer Intern in the General Insurance Team (Dec 2022 –Feb 2023)

- Analyzed claims and financial data to identify risk trends and predict market behaviors
- Created actionable insights to assist strategic decisions across underwriting and reserving
- Presented key findings to stakeholders, fostering data-driven collaboration

PROJECTS

- **Health Investment Account**
  Designed a health savings product to cover future premiums and out-of-pocket healthcare costs, reducing emergency medical fund dependency and minimizing policy lapses due to partial coverage.
- **Option Pricing Case Study –** Made a **macro enabled** excel calculator for valuing an ESOP option given to employees using a Binomial Option Pricing Model. Performed Sensitivity analysis
- **Term Insurance Pricing & Reserving**
  Calculated premiums, reserves, DSAR, and reserve increases across different scenarios. Demonstrates understanding of core actuarial product modeling and use of Excel.
- **Run-off Triangle Analysis using Excel**
  Applied Chain Ladder Method to estimate ultimate losses from loss triangles. Provided insights into claim development and portfolio profitability—core to actuarial reserving work.

CO-CURRICULAR AND EXTRACURRICULAR ACTIVITIES

- College Clubs - member of IAQS Actuarial Society.
- Winner – Inter-College Cricket Tournament (Trichy)
- Volunteer – Legal Literacy Club, Trichy: Street plays, awareness camps, and seminars
